

the modern learning
ECOSYSTEM

a new L&D **mindset**
for today's workplace

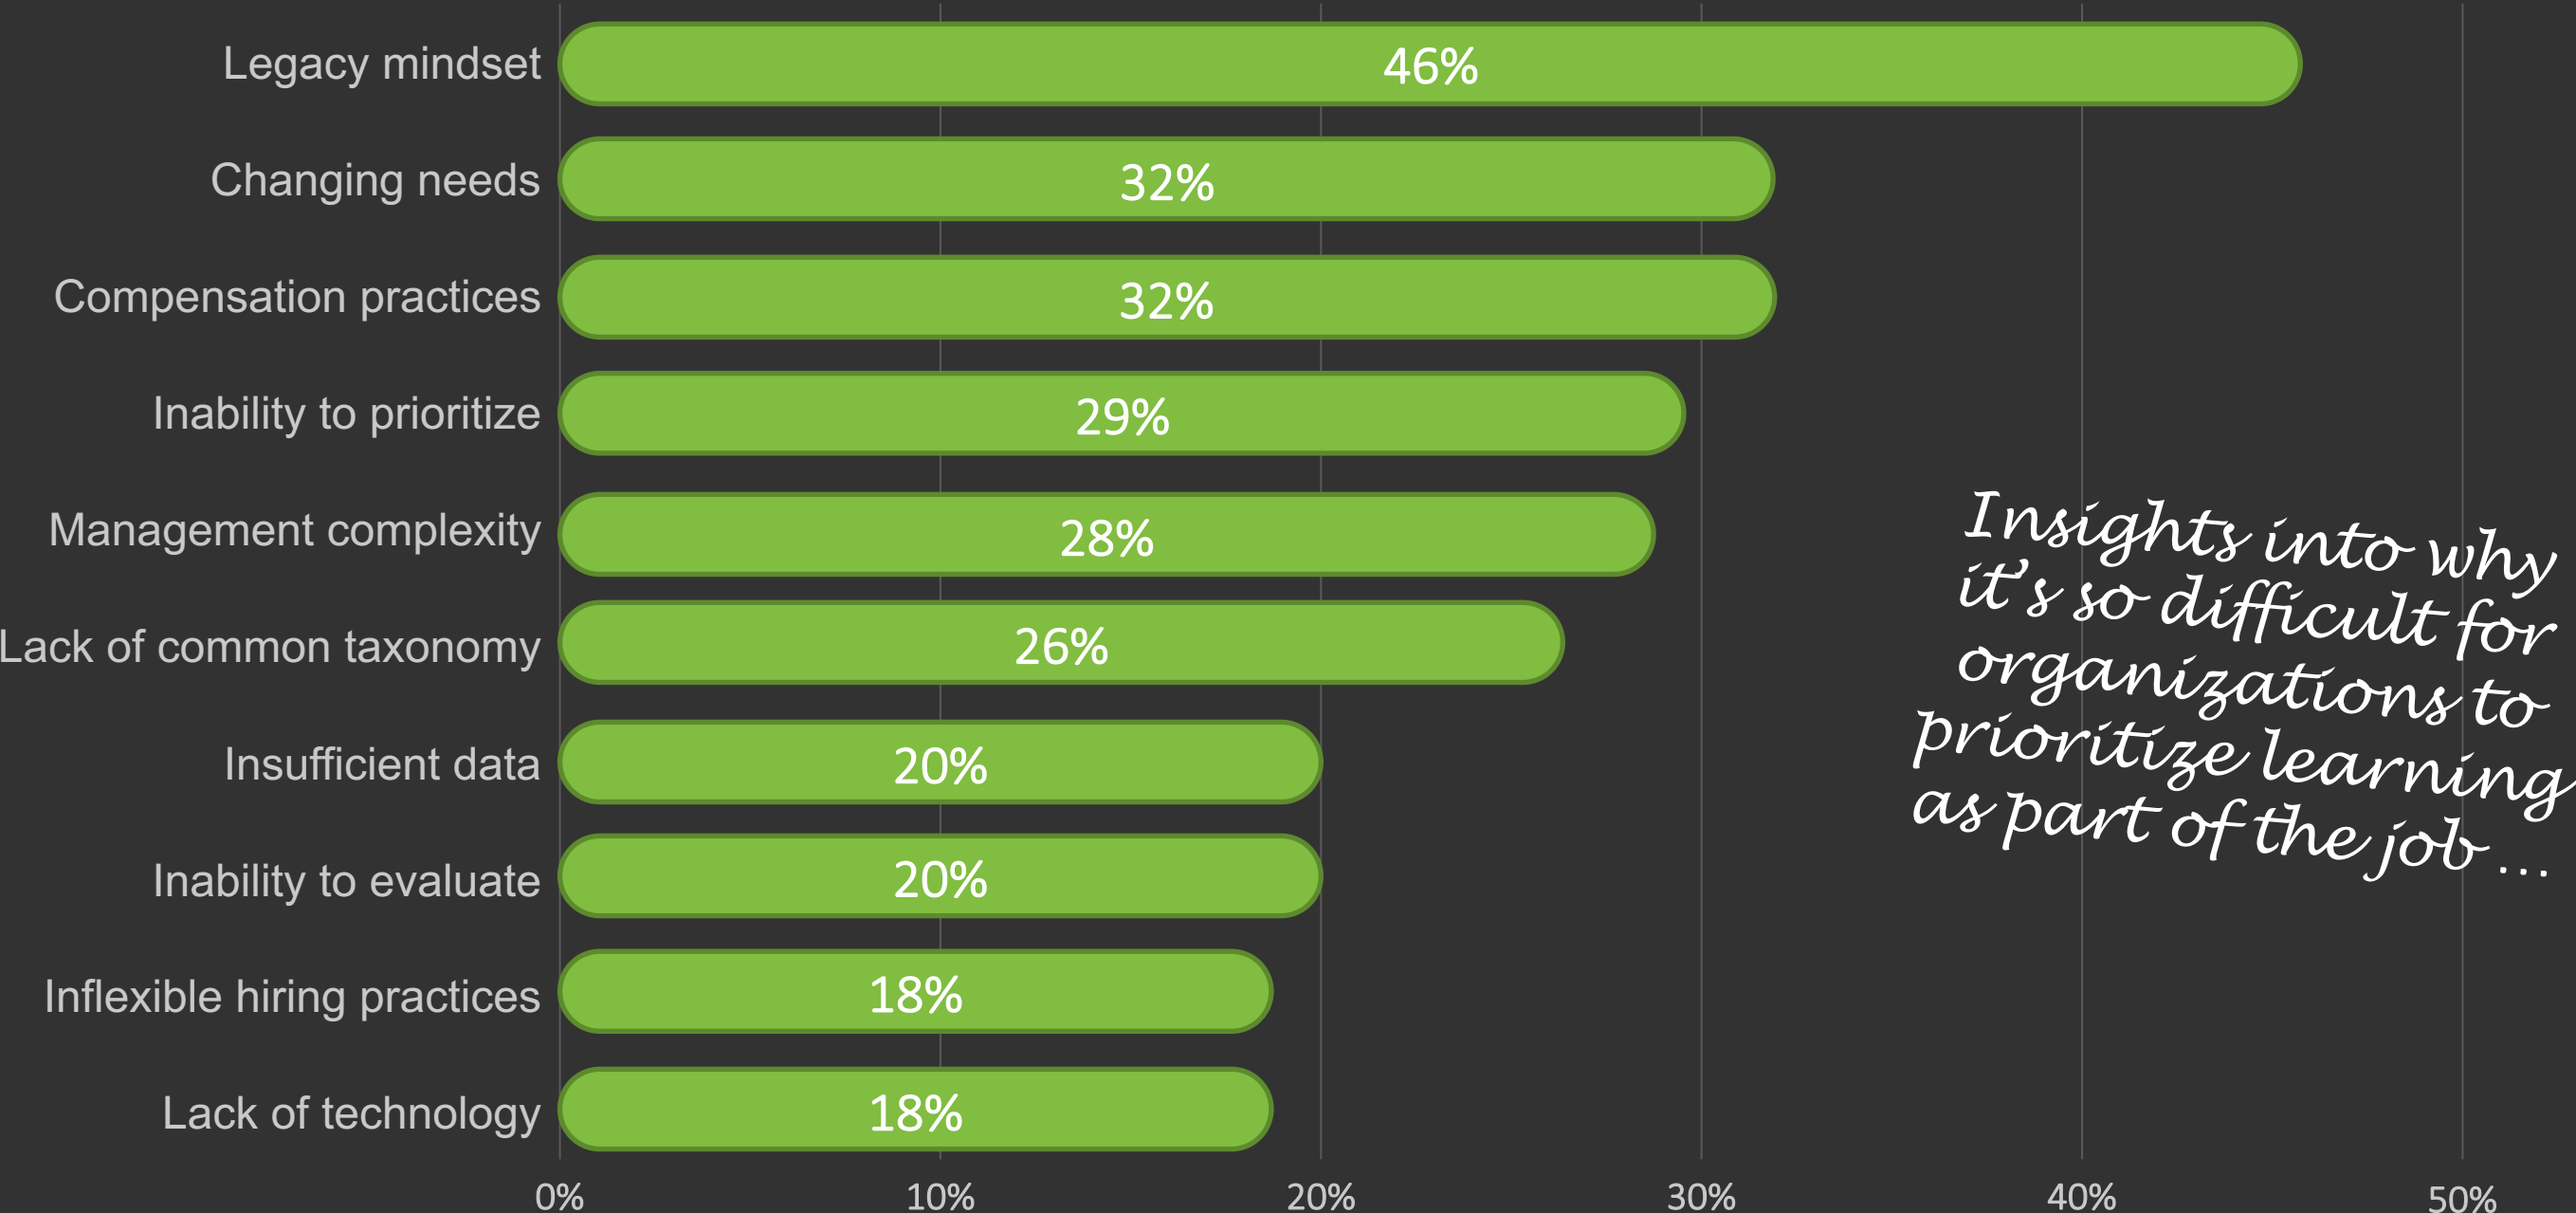

Download JD's full slide deck via LearnGeek at learngeek.co/presentations

But keep clicking for a sneak peek at some of the highlights like...

Obstacles to transforming into a skills-based organization

Solve today's problems

Prepare for tomorrow

Disruption

Opportunity

L&D's constant struggle to balance immediate problems with long-term development ...

The 6 defining principles of the Modern Learning Mindset ...

modern
learning
mindset

Make learning a critical part of **work(flow)**.

Take advantage of the full **ecosystem**.

Apply **data** to accelerate decision-making.

Provide an **equitable** experience at scale.

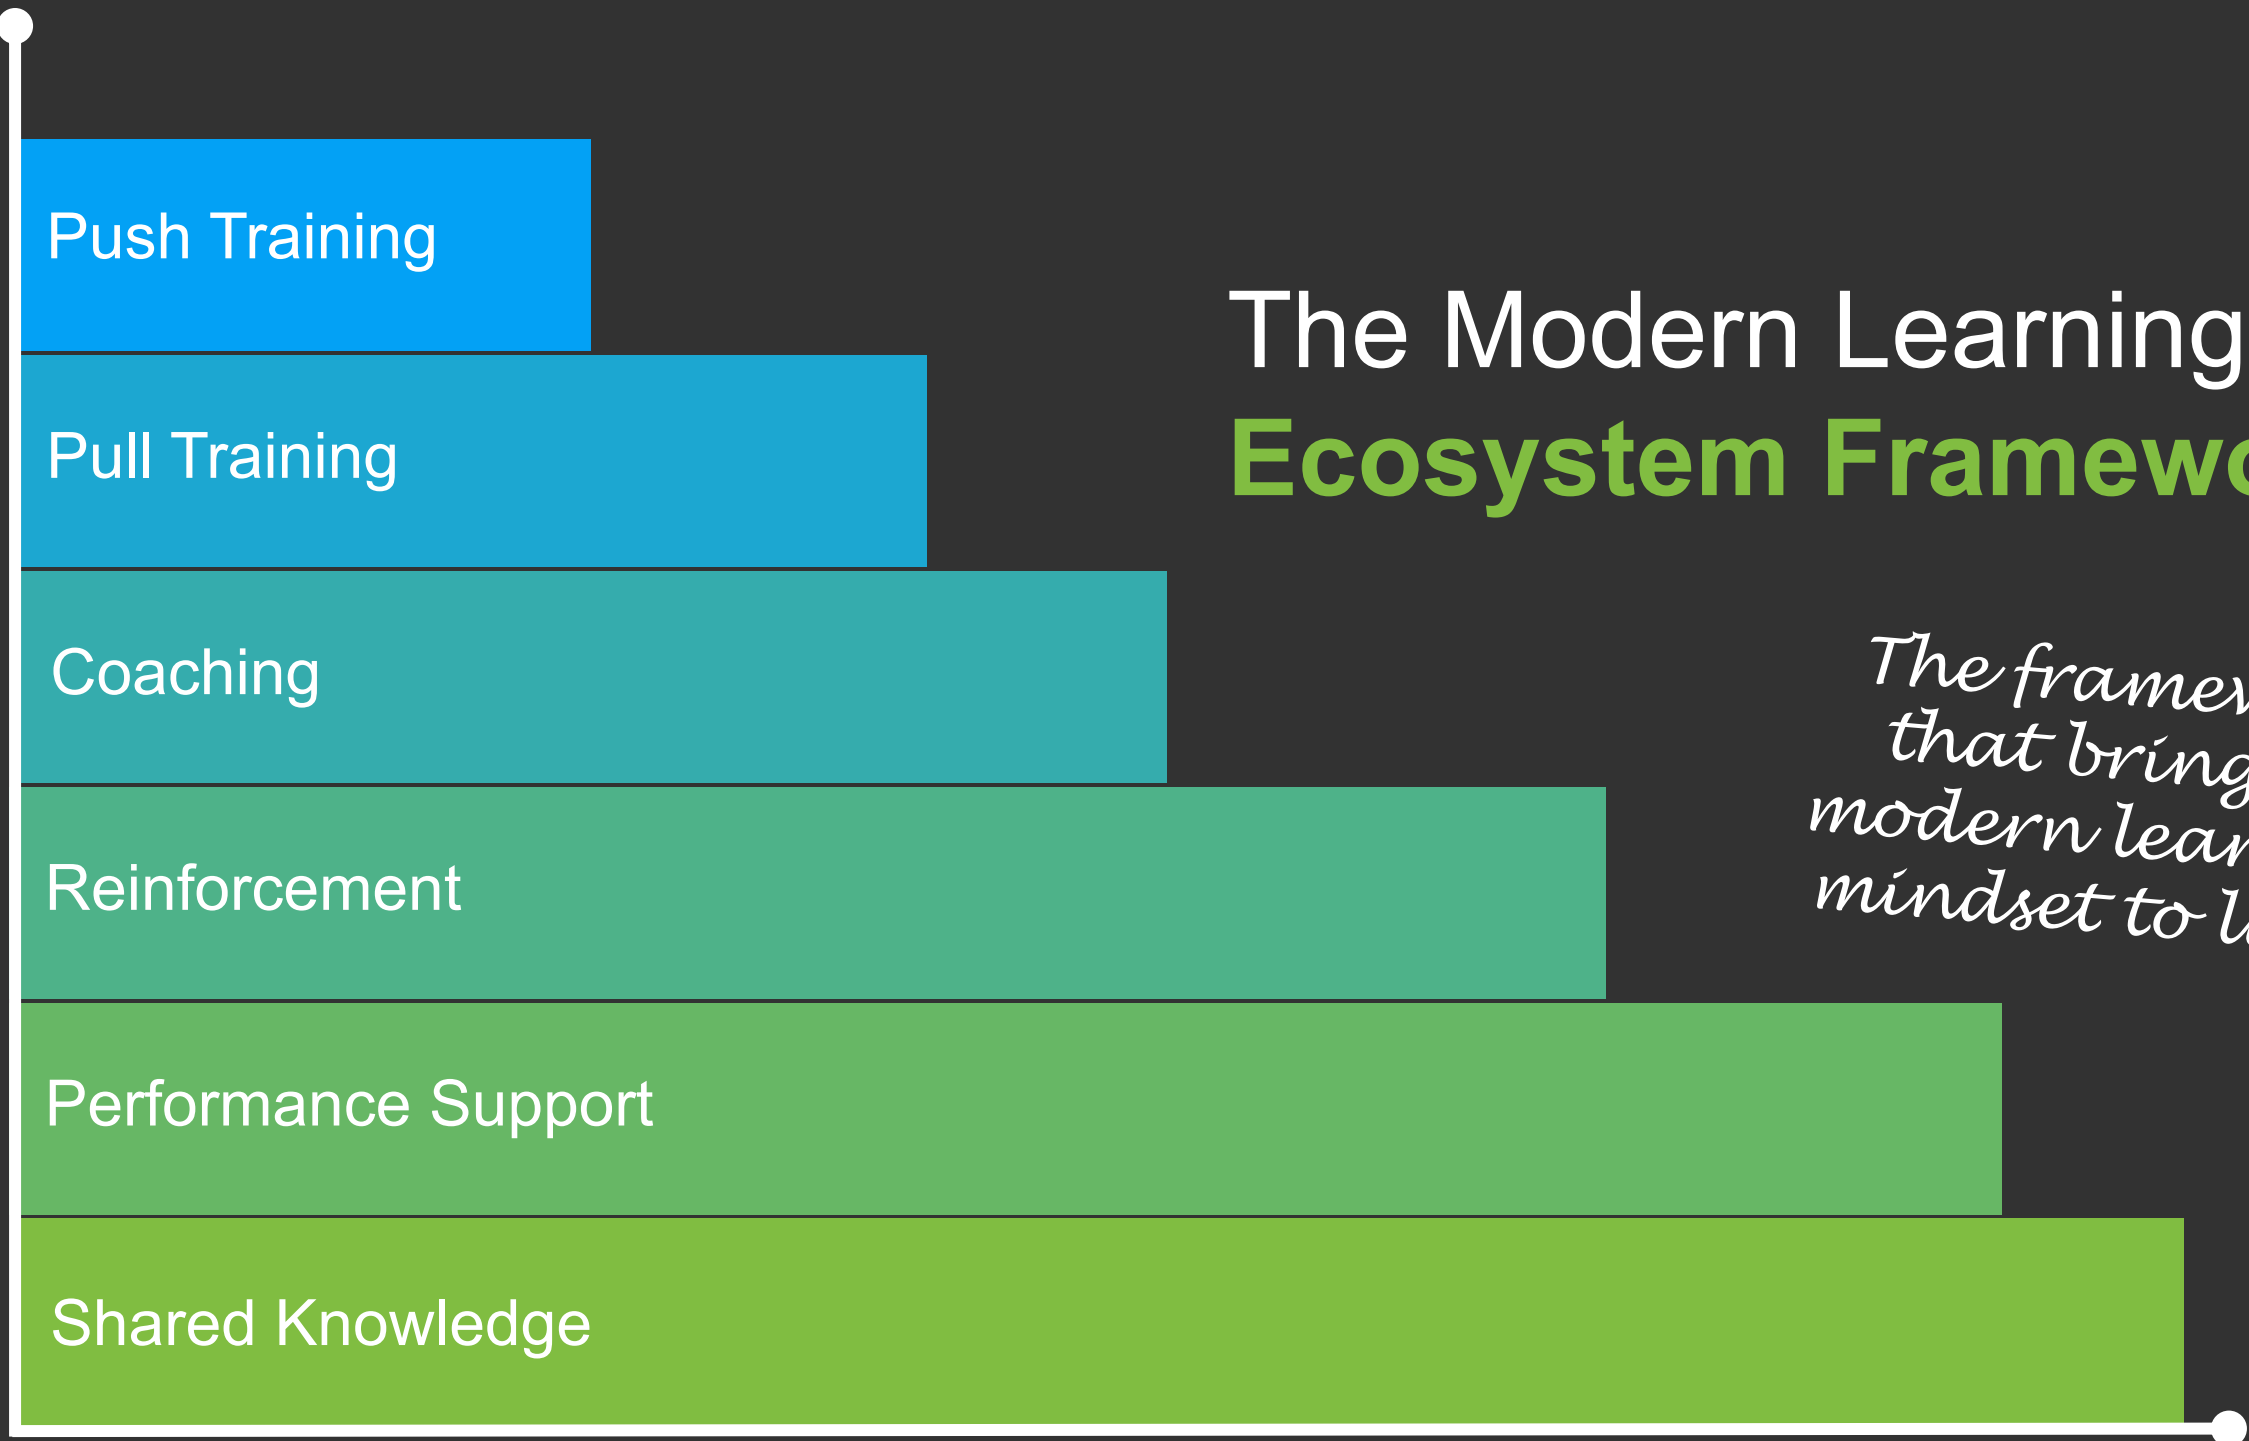

Drive clear business **impact**.

Foster persistent organizational **agility**.

*Whatever this
coyote dressed like
a plumber means...*

STRUCTURE

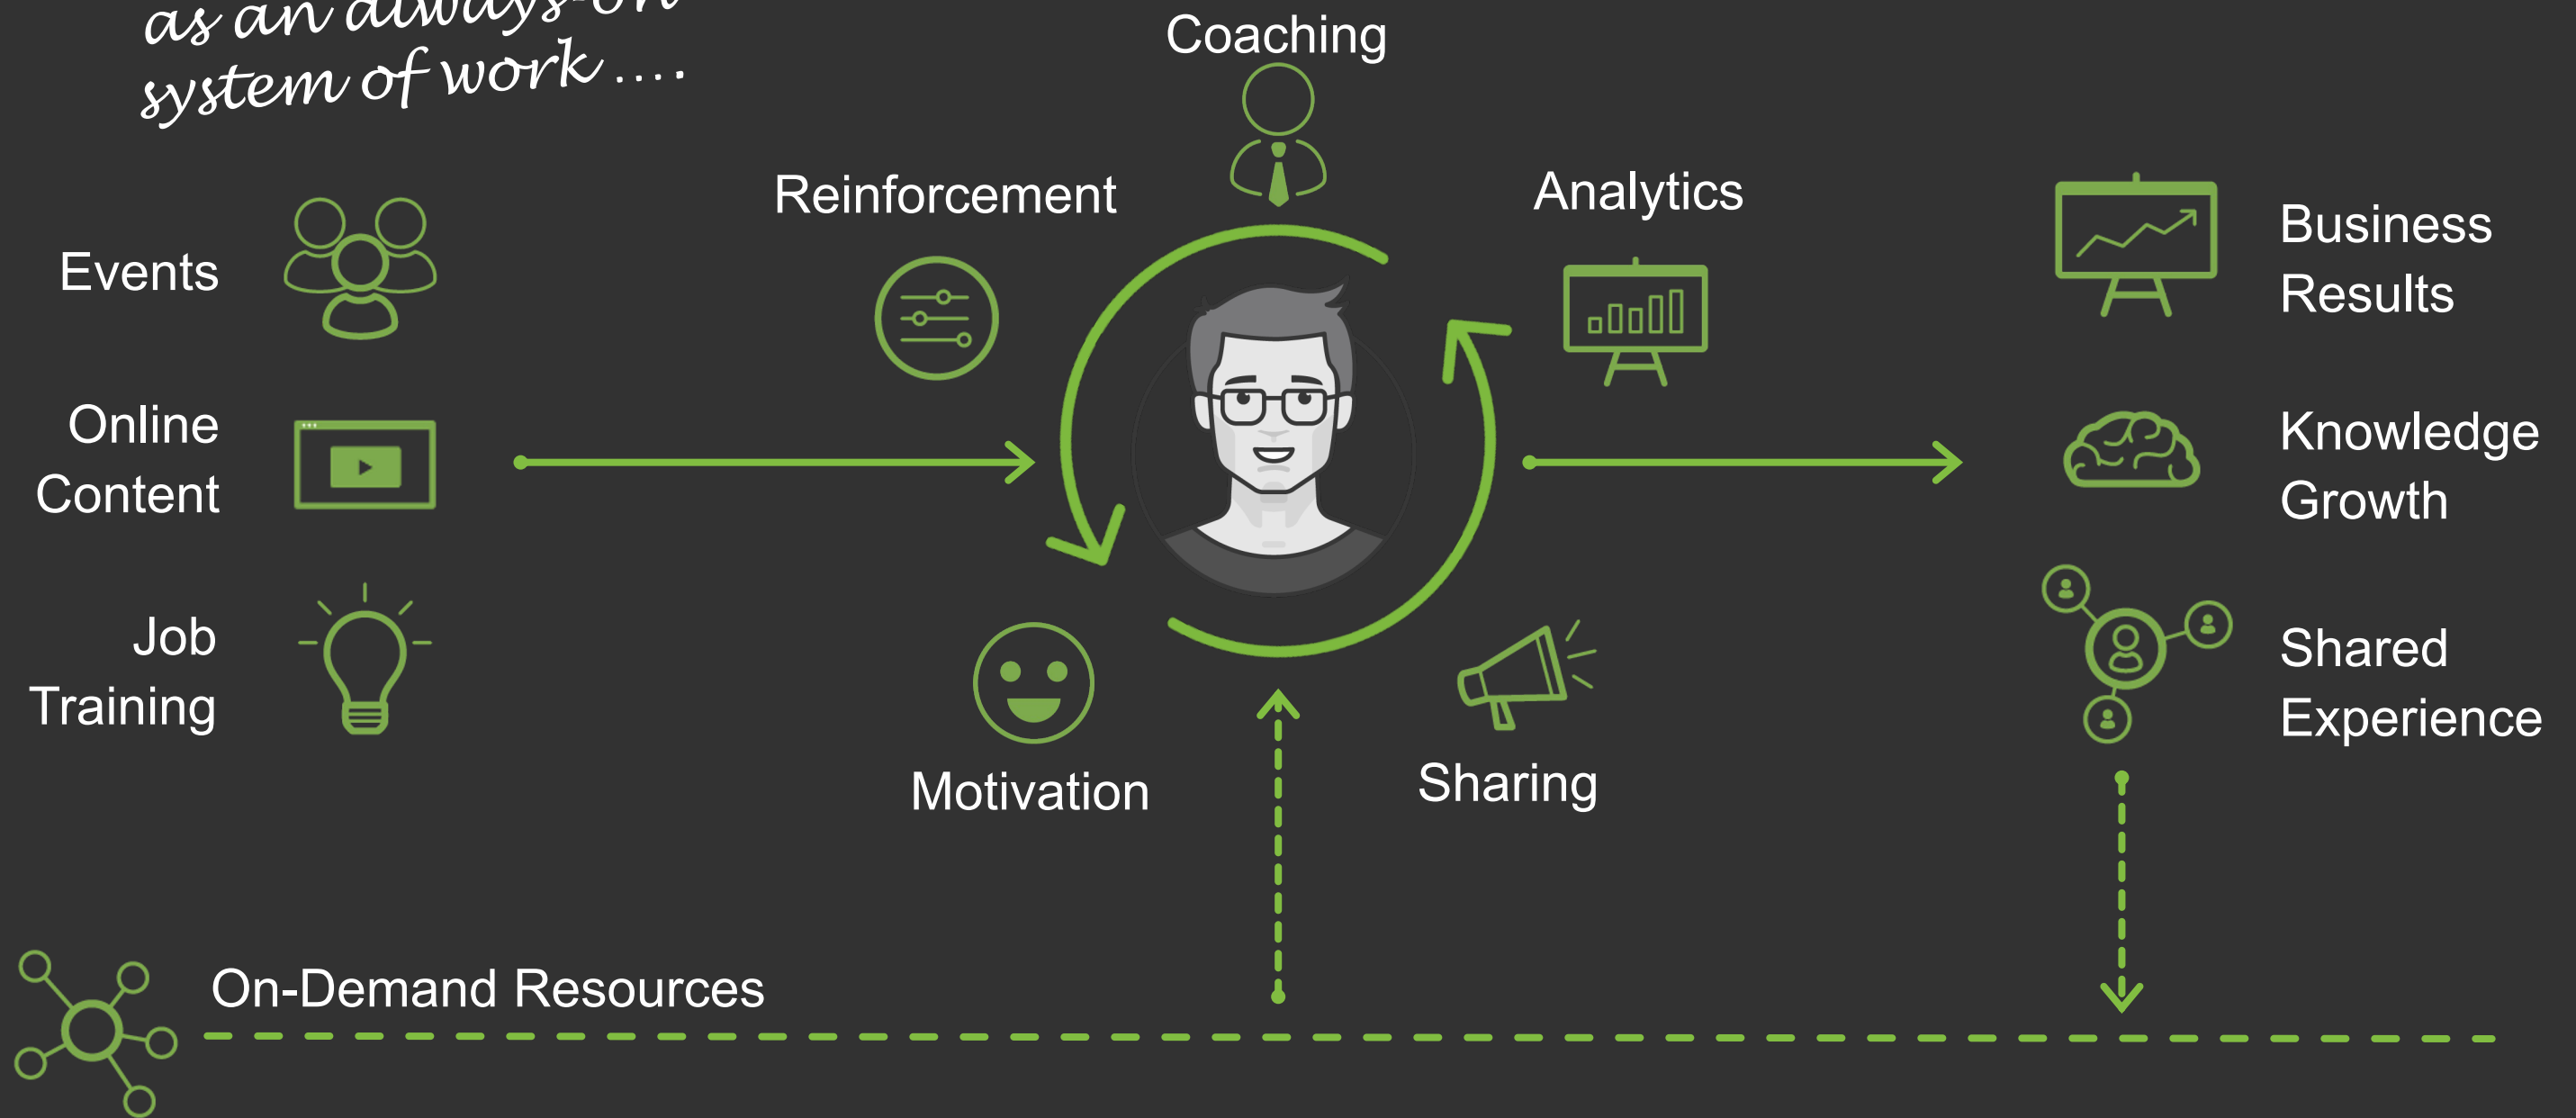

The Modern Learning Ecosystem Framework™

The framework that brings a modern learning mindset to life ...

AVAILABILITY

A vision of learning as an always-on system of work

legacy practice

build courses

deliver programs

partner with SMEs

manage projects

check boxes

*A powerful blend of
legacy and modern
practices ...*

modern mindset

curate resources

open channels

enable collaborators

maintain systems

foster agility

(and still check boxes)

*... and the most
important sentence
in the entire session.*

**An organization can only transform
as fast as people can learn.**
